

Health, Safety, Environmental and Quality Policy

Our Vision

To conduct our business without harm to people, property, the environment and our customers

Energy Logistix (Aust) Pty Ltd is a sustainable and generational business providing specialist logistics services to a diverse range of industries in the city, the outback and across the country. As a supply chain partner we guarantee the safe, efficient and timely transport of freight to its destination supported by our Fleet Smart tracking system that monitors every step of the journey. We take pride in our technology solutions combined with a smart team to deliver the safest, environmentally sustainable and best service to our customers.

We are committed to the effective management of Health, Safety, Environment and Quality (HSEQ) within our operations and through the effective implementation and improvement of our HSEQ and Compliance systems ensure:

- We have a risk aware culture where everyone in ELX understands the risks present in the work they are undertaking and they implement effective risk controls
- Individual HSEQ responsibilities and accountabilities are understood and demonstrated
- Our leaders lead by example (walk the talk)
- Everyone lives and breathes the ELX Core Values
- HSEQ Risks, aspects and impacts are considered in every decision and eliminated or minimised as far as reasonably practicable
- Health and wellness programs are encouraged and promoted
- Initiatives and programs are implemented to reduce our environmental footprint
- We consult and communicate effectively with our workforce and encourage improvement suggestions
- We have a skilled and competent workforce who are provided with information, training and supervision
- Consistent, dependable and reliable quality of our services that demonstrate high levels of customer satisfaction
- Sub-contractors effectively manage HSEQ in alignment with this policy through active consultation, coordination and cooperation
- Compliance with Work Health & Safety, Environment and Heavy Vehicle legislation
- Certification to ISO 45001 OHS Management Systems, ISO 9001 Quality Management Systems and HACCP Food Safety Standards
- Maintaining NHVAS Accreditation for Mass, Maintenance and Fatigue Management
- We are respected by the communities we operate within
- HSEQ strategy and objectives are clear, performance is measured and understood against both lead and lag indicators to drive continual improvement.
